Evidence will be a live virtual class (a synchronous class) meeting at regularly scheduled class times per the course schedule. The course will be streamed live using Zoom, WebEx or similar web streaming platform. The class will be recorded with recordings uploaded to the Echo site with open access to each class for the entire semester. PowerPoint slides and other materials for each class will be posted on Sakai. Class content will also include video materials which will be accessible through web links or video files posted on Sakai. The course attendance policy will follow the Carolina Law attendance guidelines and attendance will be taken through the streaming service. Depending on the size of the course¿s enrollment, the course will have one or more on-call groups of 5-10 students. Those on-call groups will be on call for certain classes per a schedule available to students before the first class. On-call students must attend class live and be able to participate in the class with active, unmuted video and audio. Students who are not on call will be asked to mute their camera and microphones during the class, unless asking a question. The class will take a ten to fifteen minute break after approximately 1 hour to 1 hour and 15 minutes into the class.

The Professional Responsibility course this summer will be partially asynchronous, meaning some of the content will be covered via pre-recorded lectures available for viewing on the student¿s own schedule, and some will be conducted via live participatory teleconference. We will have a live session on the first day of class (Monday, May 11), and thereafter live sessions will exclusively be on Saturday mornings. Grading will be based on a final exam (70%), a written assignment (approximately 20%), and participation during the live sessions (approximately 10%).
No Class on Saturday, May 23 due to the holiday weekend.

The Advanced Legal Research (ALR) online course this summer will be asynchronous, which means that all the lectures will be pre-recorded and available for viewing on the student¿s own daily schedule.

The course will be structured around modules. Each module will have readings, video recordings, exercises, and quizzes to be completed independently by the student. There will also be three graded assignments throughout the semester, which will each include a research log and a written work product.

The basics of data acquisition and hardware interfacing using LabVIEW graphical programming. This software is an excellent tool that enable your computer to communicate with the instruments in your lab. LabView can also further process and display the data from these instruments. This course is taught in an abbreviated 9-day session, 9AM to Noon daily. Students will be required to have a copy of LabView software on their laptops before the beginning of the course. This software is available for free through a UNC software license. More information about this will be provided to students before the course begins.

This course is graded on a pass/fail basis.

Can take 252 lab in a later semester.
This course has prerequisite requirements.

BIOL 252L 401 1888 FUNDAMENTALS OF HUMAN A&P LAB Lab 1 SS1
(Face to Face Instruction)
Permission of the instructor required to take this lab if you haven't taken the BIOL 252 class.
Email Dr Johnson (johnsonc@bio.unc.edu) with your name, PID number, and information about the anatomy/physiology class you have previously taken: course name, university, semester & year and final grade you received.
NOT open to first year students.

Bldg: Wilson **Room:** 0111 **Days:** MWTh **Time:** 08:30 - 11:00
TA 100 **Instructor:** Johnson,Corey Samuel

TA 100 **Instructor:** Sorrell,Cody Austin

Class Enrl Cap: 30 **Class Enrl Tot:** 26 **Class Wait Cap:** 8 **Class Wait Tot:** 0 **Class Min Enrl:** 0

This course is deeply interested in how fiction reflects the continuity of our lived experience. Samuel Delany refers to this idea as reproduction versus representation¿if something isn¿t possible in our world (doesn¿t reproduce the world we know), then it must represent something (what¿s the point of aliens or time travel in a novel?). All authors assigned in this course ask us to reconsider time and history through their use of genres such as the gothic, horror, science fiction, and forms of magical realism.

The United States was founded through dissent, and the tradition of collective action has shaped the country and its literature ever since. This course will focus on major American authors who engaged in forms of literary protest from approximately 1850 to 1950 including Henry David Thoreau, Harriet Jacobs, Stephen Crane, James Weldon Johnson, Kate Chopin, John Steinbeck, and Mine Okubo.

We will think of literature and protest as broadly as possible to make connections across time to consider the rich literary history that continues to

inform our contemporary moment. The historical period covered in this class, from the dawn of the Civil War until World War II, established may political and cultural trends that continue to shape forms of protest in the 21st century. Accordingly, we will study the past with an eye to how it informs our present.

Through our study of major American authors, we will attempt to answer some of the following questions: How has literature been mobilized as a form of

In this course, students will critically analyze five popular genres dystopian literature, science fiction, detective fiction, fantasy, and one additional genre.

The media through which the class will study popular genres include novels, movies, television shows, blogs, and websites. Whereas up to this point most of us have enjoyed popular genres as entertainment without thinking critically about them, this class will be a departure. Students in this class will examine the assigned texts from an analytical perspective. We will look at formulaic analysis, historical context, cultural context, and ideological approaches, among others. What does popular literature tell us about the world in which we live? What kinds of influences are we making ourselves susceptible to when we read this literature?

This course examines the birth and development of science fiction in the nineteenth and twentieth centuries, especially as science fiction intersects with the tradition of utopian and dystopian speculation. Texts will include Edward Bellamy's Looking Backward (1888), H.G. Wells¿ The Time Machine (1895), E.M. Forster's The Machine Stops, Aldous Huxley¿s Brave New World (1932), Olaf Stapledon¿s Starmaker (1937), and Ayn Rand's Anthem (1938). Films will include 2001: A Space Odyssey (1968), Koyaanisqatsi (1982), Ex Machina (2015), and Don Hertzfeldt's animated short The World of Tomorrow (2015), as well as episodes of Black Mirror.

GR1

Attributes: E2- Academic Internship

This course offers experiential learning as a way of connecting the classroom to the world through workplace experience. The field experience (internship) is intended to provide students with learning/growth opportunities not typically available in a structured classroom setting. The internship experience extends and complements prior coursework allowing for implementation of theories and practices of sport administration under the supervision of a sport organization manager/leader.

ELIGIBILITY
First-year students who entered UNC-CH in fall 2019 and spring 2020 are eligible to enroll in this class. First-year students entering UNC-CH in fall 2020 are also eligible to enroll in this class.

GEN EDS
CI

ABOUT THE COURSE
This course offers first year students an opportunity to explore American public life through the lens of professional journalism. Students will read explanatory journalism, examine what makes information credible or not. By engaging in group discussions and writing their own analyses, they will deepen

Migration remains one of the most controversial issues in contemporary politics. Although demographic trends in North America and Europe have created a need for migrant labor, the growth of foreign born populations in both regions has been a source of considerable tension and native backlash. This course presents students with an interdisciplinary analysis of migration and the migrant experience in both regions. Students will examine the motivation of migrants, the decision calculus behind the choice to migrate, and the implications of migration for families and social groups. The course will further examine the migrant experience in destination states, pressures to assimilate, the process of integration, as well as the process of immigrant incorporation. In addition to the substantive component, this course requires students to conduct original research, culminating in a poster presentation of their individual projects.

HNRS 350.01M | Startup Bootcamp: From Idea to Actionable Business Plan
MTWRF, 9:00am-12:15pm. Instructor(s): Kurt Schmidt. Enrollment = 12.
This class will bring out your inner startup ninja. Over the course of three weeks, you¿ll have the opportunity to create an idea for a startup and transform it into an actionable business plan. Specially designed for non-business majors, Startup Bootcamp welcomes all students and aspiring entrepreneurs with a hunger to learn.

Students will utilize a business plan creation model to develop the foundational skills to get a startup idea off the ground. This class will meet at UNC¿s 1789 Venture Lab, where you will collaborate and ideate with other first-time entrepreneurs in a purpose-built startup environment. Students majoring or minoring in business are not eligible.
