This course is cross-listed with WMST 140.

Introduces students to concepts in queer theory and recent sexuality studies. Topics include queer lit, AIDS, race and sexuality, representations of gays and lesbians in the media, political activism/literature. Online.

This course will explore how the visceral interplay between terror and horror lies at the heart of a genre that confronts its readers with the darker side of human nature. Primarily, we will focus on horror fiction that revolves around haunted spaces, from its origins in the Gothic novel to the contemporary work of Stephen King. Readings will include The Haunting of Hill House, Hell House and excerpts from Mark Z. Danielewski's House of Leaves. To enrich our discussion of the literature, we will also discuss horror films such as Alfred Hitchcock's Rebecca, Stanley Kubrick's The Shining, Halloween (and its 2018 sequel), episodes from the Netflix series The Haunting of Hill House, Suspiria (and its 2018 remake) and Hereditary. Attributes: E2- Academic Internship

This course offers experiential learning as a way of connecting the classroom to the world through workplace experience. The field experience (internship) is intended to provide students with learning/growth opportunities not typically available in a structured classroom setting. The internship experience extends and complements prior coursework allowing for implementation of theories and practices of sport administration under the supervision of a sport organization manager/leader.

GR3
The program will focus on building skills necessary for designing and implementing sustainable financing and governance systems for water and other environmental projects. Program will include a mix of classroom sessions, field visits, guest lectures, and service learning project work. This course looks at the difficult "how to pay" questions related to water resources management and other environmental services by examining the strategies, systems, and tools that societies, governments, and communities use to pay for environmental programs and services.

This course, traditionally taught at UNC, is open to graduate students, recent graduates, and select advanced undergraduates. Past course participants have included students from the Department of Environmental Sciences & Engineering, Public Administration, and the Department of City and Regional Planning. Program and course fees are currently being finalized, and are somewhat flexible. Program cost will depend on the number of course credits selected and service projects. Anticipated cost for UNC students with NC residency, excluding airfare: $4,000 to $6,000. There are substantial grants and funding options available through the Institute for the Study of the Americas, the Carolina Center for Public Service, and the School of Public Health.
