GR1

Our online course is hosted through Canvas. All required coursework is completed online, asynchronously (pre-recorded lectures). During the semester office hours will be announced, with the option to meet weekly with Dr. Pittman either in-person (Genetic Medicine Building) or online. I will teach 3 sections this semester: Section 001 ¿ Lecture (Online): everyone taking the course must be enrolled. Sections 401 and 402 ¿ Lab (online) you must enroll in 1 lab section. For all class sections: exams, quizzes and assignments remain online.
I will teach 2 lab sections this semester. Register for either lab section, they are equivalent. Both lab sections will be taught online, asynchronous. The lab is required; you will receive 1 combined grade for lab + lecture (same as this semester).

TITLE: Navigating and Advocating for Your Wellness

IDEAS IN ACTION GEN ED: FY-SEMINAR

DESCRIPTION
Healthcare systems are responsible for fostering the competence and safety of practitioners. Patients and families are integral members of the healthcare team. Therefore, it is essential to ensure that individuals possess the necessary knowledge and skills to navigate the complex healthcare system and advocate for high-quality and safe healthcare to ensure their optimal well-being.

Navigating and Advocating for your Wellness is a dynamic and interactive freshman seminar course designed to empower students with the knowledge and skills

Bios 500H is an introductory course in probability and statistical inference designed for the background and needs of BSPH Biostatistics students.

Topics include survey sampling, descriptive statistics, design of experiments, correlation, probability, confidence intervals, tests of hypotheses, 2-way tables, chi-square distribution, power, ANOVA, non-parametric tests, and linear regression. A small class size will allow opportunity for more in-depth treatment of biostatistics topics.

In addition to traditional introductory statistical concepts, students explore current controversies, ethical questions, and common errors in the medical literature through a variety of readings and a project. Students will be able to produce straight-forward statistical graphs and conduct commonly used analyses using SAS software. Emphasis will be placed on understanding the underlying mathematical concepts in biostatistics, developing SAS programming skills and interpreting results clearly for a non-statistical audience in writing.

During early registration, only BIOS students will be allowed to register. If you are a NON-BIOS student interested in this course, please add yourself to the waitlist in Connect Carolina - you do not need to contact the instructor. Because this is a required course for some incoming biostatistics students who register in the summer, we will not have any information about the availability of seats until just before classes start. We may not be able to take students off this waitlist until mid-August, even though there appear to be open seats in Connect Carolina. We enroll students with this priority: biostatistics students, students in the SPH, students outside the SPH, so the waitlist priority may not reflect the order that students are removed off the waitlist. While we do our best to accommodate interested students, in past semesters, students with lower priority were not able to enroll in the course. *Undergraduates can only be on one waitlist at a time.

TITLE: Environment-ECUIPP Lab: Connecting with Communities through Environmental Research for Public Health

IDEAS IN ACTION GEN EDS: FY-SEMINAR

DESCRIPTION
This course is an entry into an undergraduate learning community organized by the Gillings School of Global Public Health, Department of Environmental Science and Engineering. The ECUIPP Lab (Environmentally-Engaged Communities and Undergraduate students Investigating for Public health Protection) is a creative community of students, faculty members and practice partners. Students in ENVR 89-001 will become members of the Environment-ECUIPP Lab. Over the course of the semester they will design and conduct research that addresses a pressing environmental health issue in a local community. Students will work with the local community partner to develop a research question and use the resources of the ECUIPP Lab and the Department of Environmental Sciences and

Reserve Capacity: 19-DEC-2017 All Graduate SPH Programs **Reserve Enrl Cap:** 1 **Reserve Enrl Tot:** 1

This course meets Monday evenings (5:00pm to 7:00pm) at the NC Biotechnology Center and is coupled with a zoom discussion session Thursday mornings (8:00am to 9:15am). All students will attend the Monday evening lectures. Students enrolled for 1 or 2 credits are only required to attend the Monday evening lectures. Students enrolled for 3 credits will also attend the Thursday morning discussions. Registration for 1 credit enrollment with reduced assignments requires permission of the instructor.

This course is a 1/2 credit hour class. Students will need to select 1/2 hours when registering.

The course provides a structured opportunity for students to learn and participate in Gillings-wide guest lectures and special events for academic credit and aims to foster an environment of active learning and discussion, encouraging students to engage with the material and with each other. As part of the course requirements, students must attend the following events: (a) 1, 60-minute, synchronous, online orientation session; (b) 1 instructor-designated lecture, and; (c) 3 additional events/lectures from a pre-approved list of online and residential options. This course will include the following graded assignments that contribute to your final grade in the course (1) a final reflection paper; (2) attendance. This course is open to all Gillings students including undergrads and grads/residential, MPH@UNC, and Asheville.
