GR1

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

TITLE: Afro-Latinxs in the U.S.

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-GLOBAL or FC-POWER

COURSE DESCRIPTION

What does it mean to be both racially Black and ethnically Latino in the U.S.? This discussion-based course will look at the history, culture, experiences, political struggles, and social dilemmas of ¿Afro-Latina/o/xs¿: African-descended peoples from Latin America and the Spanish-speaking Caribbean who reside in the U.S. The erasure of these communities, along with their struggles for well-being, prosperity, belonging, and visibility, will be explored. The class provides an opportunity for a deeper understanding of the legacies of the transatlantic slave trade, ethno-nationalism, and U.S. foreign-policy, and their connection to contemporary issues of migration, sexism, inequality, and anti-blackness. In-depth conversations about the politics of ¿race¿ and ¿ethnicity¿

TITLE: Women of the Black Atlantic

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-GLOBAL

COURSE DESCRIPTION

This course examines constructions of gender and individual and collective responses to developing systems of inequality in the Atlantic world shaped by sex, race, and class. Students analyze and compare how African, European, and American societies constructed the category of ¿woman¿ and the constraints and liberties these constructions imposed.

Course participants document and examine how concepts of race and processes of racialization impacted experience for African and African descent women

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

This class is cross-listed with NUTRI 715 / ANTH 175

This course introduces students to a wide range of topics covering food studies taught by faculty across the UNC campus as well as from Duke, NC State and outside of an academic setting. The overall objective of this course is to provide an overview of how individuals, communities, and societies produce, distribute, and eat food. This inter-disciplinary course will examine cultural, political, economic, environmental, and geographic approaches to food within local, national, and global contexts. Topics include food politics, food in the arts, land use, how we eat through time, culture and religious food values as well as a basic understanding of physiological concepts of nutrition. Students will explore:

GR1

In his memoir *Black Boy*, Richard Wright wrote that he left the south as a young man not to "forget the south, but so that some day [he] might understand it." In this course, students will engage the ways that thinkers across different genres and mediums-- novelists, visual artists, directors, activists, and others-- have reckoned with this challenge to "understand the south," both in the south and from elsewhere. In doing so, we will look at the ways that authors and artists invoke the south's varied natural landscapes in articulating regional and local identity in order to think more broadly about what we mean when we talk about "the south."

AMST 255: DIFFERENCE AND POWER IN AMERICAN CULTURE(S)

This course examines a broad range of topics (race, class, sexuality, gender, and/or disability for example) that focus on power in the United States. We will move across a range of interdisciplinary sources and historical moments to understand who and what we are to one another in our national landscape. Students in the course will pose problems and questions that require systematic thinking about evidence, argument and uncertainty. Students are to consider the content of the course in the context of human difference between and within societies, encountering the range of debate in the field.

This course is cross-listed with ASIA 691H

AMST 691H is a research and methods course designed to help senior American Studies and Asian Studies majors research and write an honors thesis. Our objectives are to review some major issues in Asian and American Studies and interdisciplinary area studies in general, investigate how each student's research topic fits into these larger debates, review the writing conventions of the appropriate discipline and field, and help students produce innovative, insightful, and articulate research essays. EE.

Students who complete and successfully defend an honors thesis will graduate with honors. American Studies and Asian Studies students will also participate in the senior colloquium in the spring, where each student will give a short presentation summarizing their thesis research. Completed theses will be entered into the Carolina Digital Repository.

Students writing an honors thesis will be enrolled in AMST 691H and ASIA 691H by the department once their thesis applications have been approved.

TOPIC: Environmental Humanities

IDEAS IN ACTION GEN EDS: FY-SEMINAR

DESCRIPTION:

The contemporary moment in Earth's history is increasingly defined by environmental changes and threats, many of which lead to the loss and displacement of human, animal, and plant lives and fundamental alterations to the landscape. While scientific research and technological innovation are critical to addressing such ecological challenges, the environmental humanities can offer equally vital insights by examining how cultural values, artistic expressions, and ethical perspectives have formed and been formed by humans' relationships with the environment. Through discussions, activities, and projects, this course examines the relevance and power of the humanities in comprehending, researching, and responding to environmental issues. By consulting artists,

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>

ANTH 053H.001 | Darwin's Dangerous Idea

TR, 9:30 am - 10:45 am. Instructor(s): Paul Leslie. Enrollment = 24.

Darwin's theory of evolution by natural selection is central to one of the most profound revolutions in the history of thought, generating stunning insights but also some misunderstanding and tragic abuse. This seminar aims to provide a clear understanding of how natural selection works, and how it doesn't. We will examine objections to the theory; how the environmental and health problems we face today reflect processes of natural selection in the past and now; and recent attempts to understand why we get sick, how we respond to disease, why we get old, when and why we fight or help one another, why we choose mates the way we do, and more. Class sessions will feature a mix of lecture and discussion of concepts and issues. Students will also engage in small group projects; cooperative explorations of problems raised in class or in the readings and/or designing mini research projects.

FIRST YEAR STUDENTS ONLY.

ANTH	62	001	8542	FYS INDIAN COUNTRY TODAY	Lecture (In Person On Campus Learners)	3	A

<b>Class Enrl Cap:</b> 3		<b>Class Enrl Tot:</b> 3	<b>Class Wait Cap:</b> 999	<b>Class Wait Tot:</b> 0	<b>Class Min Enrl:</b> 0		GR1

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

TITLE: Walking in the World: The Anthropology of Moving, Knowing, and Creating

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-KNOWING

DESCRIPTION:

We learn about the world as we move through it. In moving, we change the world around us and we are transformed by our experiences. However, we are not free to move wherever we wish. We live with boundaries, some only dimly understood. And yet, sometimes we come together to challenge these boundaries and struggle to create something new.

In this class, students will learn how anthropologists create research projects to explore these questions. While our focus will be on cultural

This ANTH 490 course will familiarize upper-level undergraduates with systems thinking and directed change within the realms of research or problem-solving

that anthropology degree holders might encounter in the public sector, private sector, or third sector. Systems thinking involves identifying and comprehending interconnections among individuals, groups, organizations, and locales. It requires identifying and remedying persistent obstacles hindering the attainment of efficacy, equity, or well-being within a given system. Systems thinking equips change agents to implement appropriate interventions.

TITLE: Tree, Timber, Totem

NOTE: This course has been listed as APPL 89.001 in the previous terms.

COURSE DESCRIPTION

Trees, through their biology, meaning and uses, create an arc of understanding that spans what it means to be human. Ultimately, we will explore the meaning of trees and wood and why we seek happiness in nature, cherish wood and the creation of objects of wood. Tree: What is a tree from a biological perspective? How do they represent a complex community and play a vital role in life on the planet? Timber: What is the economy of wood internationally and in the state of NC? What are biophysical and material properties of trees that allow them to grow so large and be so useful to human society? Totem: Why do we respond emotionally to wood and choose it as a material in our lives and surroundings? How do we design and create objects of meaning from wood? We will walk in the woods, meet wood people from across the state and country and learn woodworking with projects of the students; design and creation.

TITLE: Convergent Research: Solving the Grand Engineering Challenges of the Future

IDEAS IN ACTION GEN EDS: FY-SEMINAR

DESCRIPTION

Convergence research focuses on addressing complex problems in science, engineering, and society. Today's and tomorrow's grand challenges will not be solved by one discipline, but by the integration of knowledge, methods, and expertise from across various disciplines.

This first-year seminar will introduce students to the new scientific language of convergence research. Through surveying the grand challenges of engineering, we will learn how through pursuing a common research challenge, experts from various fields intermix their knowledge, theories, methods, data,

APPL	101	001	9434	EXPLORING ENGINEERING	Lecture (In Person On Campus Learners)	3	A
<b>Bldg:</b> Genome Sciences Bui		<b>Room:</b> G010	<b>Days:</b> TuTh	<b>Time:</b> 12:30 - 13:45

GR1

Engineers help to design and build solutions to the world's problems. This course will explore some of the fundamental skills and tools in engineering. You will get experience using engineering tools, and you will also develop a mindset so that you can "learn how to learn" because technology changes rapidly and the tools that you use today may be obsolete in 20 years. There will be an emphasis on developing strong professional skills, including work in a group setting and effectively communicating your efforts.

In addition, a goal of this class is to help you develop an entrepreneurial mindset so that you will understand the bigger picture. For example, while it may be easy to develop an engineering solution to a problem, what are the economic and ethical considerations of various solutions? These concepts are important to help engineers build a better world.

This will be an "active learning" class in which we spend much of our class time working. For example, we will write computer programs to model and simulate

					(In Person On Campus Learners)				

Seats in this class are reserved for each class year. When the registration window opens for your class year, a limited number of seats will become available on a first-come first-served basis. If these seats are already taken when you try to sign up, we encourage you to sign up for the waitlist. In past years, many students have been able to enroll from the waitlist.

Students work in flexible, interdisciplinary teams to assess opportunities, brainstorm, and prototype solutions. Design thinking and physical prototyping skills are developed through fast-paced, iterative exercises in a variety of contexts and environments.

For this course's sample syllabus, please visit APS website at <https://aps.unc.edu/coursework/>

<b>Reserve Capacity:</b>		22-MAR-2024	Undergraduate Senior Standing	<b>Reserve Enrl Cap:</b> 19		<b>Reserve Enrl Tot:</b> 19	
		22-MAR-2024	UG Sophomore Standing			19	
		22-MAR-2024	UG Junior Standing			18	

Seats in this class are reserved for each class year. When the registration window opens for your class year, a limited number of seats will become available on a first-come first-served basis. If these seats are already taken when you try to sign up, we encourage you to sign up for the waitlist. In past years, many students have been able to enroll from the waitlist.

Students work in flexible, interdisciplinary teams to assess opportunities, brainstorm, and prototype solutions. Design thinking and physical prototyping skills are developed through fast-paced, iterative exercises in a variety of contexts and environments.

For this course's sample syllabus, please visit APS website at <https://aps.unc.edu/coursework/>

APPL	110	03F	8764	DESIGN & MAKING FOR ENGINEERS Lecture	(In Person On Campus Learners)	3	A
FIRST-YEAR LAUNCH SECTION							
WHO CAN ENROLL IN THIS CLASS?							
Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog ( <a href="https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext">https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext</a> ) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.							
ENROLLMENT PROCEDURES							
Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for

What kind of material is Sponge Bob made of? What about the slime of his pet snail, Gary? We are taught that there are three states of matter: solid, gas, and liquid. However, in our daily lives we encounter materials that challenge this simple description such as foams, pastes, gels, soap, and rubber, as well as our skin, hair, nails, and cells. These are Soft Materials and in this course we will learn about their special properties and how to describe them mathematically. This class is an active one, everyone participates and everyone learns from and helps one another. We will use various in-class activities to make the class more engaging. We will discuss, take quizzes, and do presentations. We will also evaluate each other's homework. Be prepared to come to class and participate in these activities! The technical material that you will learn will provide you with a valuable skillset. In addition, a goal of this class is to help you develop an entrepreneurial mindset so that you will understand the bigger picture; draw connections between the material in this class and what you have learned in other classes; recognize opportunities; and learn from mistakes to create value for yourself and others.

GR1

An ideal research experience provides students with practical experience in a research lab, performing work that is relevant to their UNC education. The research internship should develop and enhance the students' professional skill sets and involve experiences that allow students to have responsibility for results that are of value to the research laboratory.

Research interns are mentored by a faculty member and other members of their lab. The implementation, and evaluation of the internship are a collaborative

effort between the student and their research mentor. If the research mentor is not a member of the APS faculty, then the students should also have an APS faculty advisor. Oversight is also provided by the APS Research and Internship Coordinator and/or Director of Undergraduate Studies (the same person may be serving both of these roles). Internships are typically 150 hours in duration (10 hours per week during an academic semester). However, internship time frames can be flexible to match the needs and interest of the student with the opportunities offered by the research lab.

Through independent study, students gain practical experience in an independent project either on campus or off campus, performing work that is relevant to

their studies in Applied Physical Sciences. The independent study will develop and enhance the students' professional skill set and involve experiences that enhance their entrepreneurial mindset.

Students are mentored by a faculty member and others at UNC who have relevant expertise. The implementation and evaluation of the independent study is a collaborative effort between the student and their mentor. If the mentor is not a member of the APS faculty, then the students should also have an APS faculty advisor. Oversight is also provided by the APS Research and Internship Coordinator and/or Director of Undergraduate Studies (the same person may be serving both of these roles). Independent study projects are typically 150 hours in duration (10 hours per week during an academic semester). However, time frames can be flexible to match the needs and interest of the student.

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

Instructor(s): Carol Magee. Enrollment = 24.</p> <p>When and how do you encounter visual images? When and where do you look at art? Are you aware of your body when you do so? In what ways? How do you move? What sounds are you aware of? How do you sit, stand, hold your phone, look at your computer, flip through your social media accounts? How do you move through a museum to look at a work of art? How does that impact your experience of that artwork? Does the space of the museum itself impact your experience? How do you stand or sit when you arrive at what you want to see? How do, or should, you account for these things when you are interpreting the work? Conventionally, art historical interpretation is grounded in what we see in a work of art, and how what we see connects to what we know about the world. Indeed, the work of art history is the telling of stories about meaning in artworks. This work is built upon the interconnections of what is visually evident in the artwork, conversations (with artists, collectors, archivists), interpretation (of documents, records, historical accounts, etc.), analysis and synthesis of these materials, and revelation (of previously unknown or long forgotten facts, new insights, new artworks). Yet all of these activities</p>

ARTH 279H.01S   The Arts in England, 1450-1650 TBA, TBA. Instructor(s): Tania String. Enrollment = 30. Program: Honors Semester in London Title: The Arts in England, 1450-1650 Dates: September 7 - December 14, 2024							
This course will explore the visual culture of England during the reigns of the Tudors and early Stuarts. King Henry VIII, Queen Elizabeth I, and King Charles I are some of the best known and most notorious monarchs in history and their representation in portraits, printed books, and sculptural monuments will be amongst the types of object under discussion here. We will also examine the palaces they constructed for their magnificent lifestyles. While in London we will have many opportunities to see these works of art and architecture in person with visits to the National Portrait Gallery, the National

ARTH 285H.001 | Art Since 1960

TR, 11:00 am - 12:15 pm. Instructor(s): Cary Levine. Enrollment = 24.

This course will explore some of the major trends in American and European art since 1960. It will spotlight select artists whose work offers particularly intriguing, challenging, or problematic examples of contemporary art practice. We will focus on close readings of artworks and texts and consider how the questions and debates raised by them relate to various historical, social, cultural and political contexts. This course will present contemporary art and discourse as diverse, contradictory, contested, and unresolved.

Cary Levine specializes in contemporary art. He received his Ph.D. from the Graduate Center, City University of New York, and was a recipient of a J. Paul

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit

<https://honorscarolina.unc.edu/academics/courses/#register>

ARTS 105H.001 | Basic Photography

TR, 8:00 am - 10:45 am. Instructor(s): Martin Wannam. Enrollment = 16.

In ARTS 105H Basic Photography you will be introduced to the basic techniques of digital photography. Both technical and conceptual applications of image-making will be explored. This course seeks to develop an understanding of the mechanics, visual language, and history of the photographic medium. Specifically, we will work with digital photographic practices, learning the fundamentals of DSLR cameras, Adobe editing software such as Photoshop and Bridge, inkjet printing, and basic digital workflow and file management. In conjunction with your studio practice, you will also learn about the medium's rich history.

Assignments will be supplemented with readings, films, library, and museum visits. Over the course of the semester, you will be exposed to a variety of examples of historical and contemporary photography. In the classroom you will be exposed to technical demonstrations, lectures, discussions, critiques,

Print I is a media-based studio art foundation course. It is designed to introduce core concepts of 2-D image-making through concepts and techniques of printmaking. In other words, the course focuses on developing visual literacy with specific attention to image-making strategies afforded by print media such as layering, reversal, multiple (editions, variant and modular) that make this approach to art-making unique. Questions arising from this inquiry include:

- What does working with a matrix or set of matrices allow? What sorts of images and ideas does this make possible?
- Why make art in serial or multiple forms?
- How is thinking for print different than/same as other media?
- How can the tools and methods of printmaking shape the development of an idea, both visually and conceptually?

Studio Art course enrollment is temporarily restricted to declared Studio Art majors and/or minors. For a full enrollment calendar, please visit:

This class delves into the convergence of traditional drawing and technology by harnessing the capabilities of powerful drawing apps like Adobe Fresco and others, utilizing the graphic tablet as a primary tool to replicate natural mediums. Beyond technical proficiency, the course critically examines how new media perpetually influences traditional studio practices, providing valuable insights into contemporary methods of artistic production. Please note that the class exclusively covers iPad versions of drawing applications, excluding mobile apps like Procreate for iPad or Clip Studio for Android. Owning a personal iPad is not a prerequisite for enrollment.

Email professors Dr Goldstein (bobg@unc.edu) and Dr Grabowski (beth.grabowski@unc.edu) with your PID number, major and why you want to take this exciting class/lab combo.

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit

<https://honorscarolina.unc.edu/academics/courses/#register>

ARTS 409H.001 | Art & Science: Merging Printmaking and Biology

MW, 11:15 am - 2:00 pm. Instructor(s): Bob Goldstein / Beth Grabowski. Enrollment = 14.

ARTS409H and BIOL409L together form a course that brings art majors and science majors together to learn theory and practical skills in both art and science, and to make use of this learning to make artworks using a variety of printmaking techniques. Students in this course learn some specific biological concepts and practical lab skills, and then use these and their own interests to guide, gather and generate visual information (frequently photographic) and pose questions that arise from scientific looking. These images, processes and ideas then become the point of departure for printmaking projects.

In the print studio, work in the class includes both analog and digital skills. The course introduces several printmaking processes including relief (large-scale wood cut and/or letterpress) stencil printing (screen-printing and/or pochoir) and approaches to photo-printmaking (photogravure, cyanotype). Technically, students learn how to translate imagery by hand and digitally (especially using Photoshop), make printing matrices (block, plate, or screen),

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>  
 ASIA 283H.001 | Chairman Mao's China in World History  
 MW, 3:35 pm - 4:50 pm. Instructor(s): Michael Tsin. Enrollment = 4.

In the last few years there have been many reports on how Maoism is making a comeback in China, an assertion that often draws on a rather crude comparison between the country's founding leader, Mao Zedong, and its current president, Xi Jinping. Yet, at the same time, commentators are also often quick to emphasize that in many ways the China of today is virtually unrecognizable from the country once ruled by Mao. Indeed, it is common to portray the early years of the People's Republic of China (PRC) from 1949 to the late 1970s as a period characterized by disastrous policies and China's isolation from the rest of the world. China only became a major player on the world stage, we are often told, when it rejoined the global order from the reform era of the 1980s onwards. From that perspective, then, contemporary China is a clear departure from its Maoist predecessor. How are we to reconcile these two seemingly contradictory portrayals of China nowadays?

GR1

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

TITLE: Behavior and the Brain

IDEAS IN ACTION GEN EDS: FY-SEMINAR

DESCRIPTION

Neuroscience is a profoundly integrative field spanning electrical impulses, biochemicals, cells, organs, animals, and our complex behaviors. In this class, we will discuss neurons and how they are connected, the brain, sensory and motor systems, neural plasticity, and cognition. In short, you will learn how thinking works!

BIOL	102L	401	3049	INTRO BIOLOGY LAB RESEARCH	Lab	1		A
					(In Person On Campus Learners)			
This research-based lab introduces students to the process of science through collaboration on a research project, learning relevant techniques and scientific skills.								
Topics include identification of soil bacteria and isolation of natural products they produce.								
This lab can be taken in place of BIOL 101L and when taken with BIOL 101, counts as Communication Intensive credit. For incoming first year students ONLY!

FIRST-YEAR LAUNCH SECTION

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for

The genome encodes the information necessary and sufficient for life. Understanding how genomes encodes life requires decoding. Similarly, being a successful biologist requires decoding knowledge for various audiences via science communication. Students will take part in bioinformatics research through a collaborative genome annotation project. Using these results as a foundation, students will fulfill a CommBeyond requirement by learning and practicing science communication skills to share their work. Students will hone their science literacy and practice science writing, figure design, and crafting messages for broad audiences.  
Must take BIOL 290 002 and BIOL 290L 403 together.

BIOL 290H.001 | Intro to Programming for Biogeography  
TR, 3:30 pm - 4:45 pm. Instructor(s): Xiao Feng. Enrollment = 24 (limit to 12 initially). 3 credit hours  
Biogeography is a discipline that studies the geographic distribution of living organisms across the globe. In the era of big data, biogeographic research is experiencing a surge in data volume and diversity, including vast datasets from citizen science initiatives and high-resolution environmental data from satellites. Conventional tools with graphical interfaces often struggle to manage this influx of data efficiently. Consequently, there is a growing need for data literacy, particularly in programming, to effectively analyze biogeographic big data.

This course offers an introduction to fundamental computational concepts using Python, a versatile object-oriented scripting language. Students will learn to process and analyze biological and environmental data commonly utilized in biogeographic research. Emphasizing an open-source environment, the course equips students with essential tools for conducting reproducible research. By cultivating data literacy skills highly sought after in biology and various

Permission required for enrollment.

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:

<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

Permission required for enrollment.

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:

<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

Permission required for enrollment.

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:

<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

Questions? Please contact Dr Burmeister

BIOL 395H - Honors Research in Biology

The purpose of BIOL 395H is to provide honors students with independent research experience, while working in a research lab on a question of current biological interest. Under the supervision of a faculty member, and with contribution of research postdoctoral fellows, students will learn more than just basic research techniques. They will learn how to start to think as scientists, raising hypotheses and finding ways to test them in an empirical manner. In addition to the research performed in the lab, honors students will meet with each other on a weekly basis, discuss their research and develop their scientific thinking through reading and discussing primary scientific literature.

FOR BIOLOGY MAJORS ONLY. PREVIOUS ENROLLMENT IN BIOL 201 OR 202 REQUIRED. DEPARTMENT OF BIOLOGY PERMISSION REQUIRED

BIOL 395H may be taken for no more than six graded academic credits. Three to five credit hours of research may be counted as one lecture course toward Students who take 395H meet for an hour and a half each week (in addition to the research that they do in their own labs) and work on research-related skills. We run workshops on literature search, you will discuss and analyze primary scientific literature, you will practice in scientific writing, and the icing on the cake- you will learn how to present your own research.

You do not have to be an honors student to enroll in 395H (you do have to have a GPA of 3.00 or higher).

BIOL	409L	401	3052	PRINTMAKING AND BIOLOGY	Lab (In Person On Campus Learners)	1	A
------	------	-----	------	-------------------------	---------------------------------------	---	---

BIOL 409L.401 | Art & Science: Merging Printmaking and Biology

M, 11:15 am - 2:00 pm. Instructor(s): Bob Goldstein / Beth Grabowski. Enrollment = 14.

ARTS409H and BIOL409L together form a course that brings art majors and science majors together to learn theory and practical skills in both art and science, and to make use of this learning to make artworks using a variety of printmaking techniques. Students in this course learn some specific biological concepts and practical lab skills, and then use these and their own interests to guide, gather and generate visual information (frequently photographic) and pose questions that arise from scientific looking. These images, processes and ideas then become the point of departure for printmaking projects.

In the print studio, work in the class includes both analog and digital skills. The course introduces several printmaking processes including relief (large-scale wood cut and/or letterpress), stencil printing (screen-printing and/or pochoir), intaglio (photogravure, drypoint, collagraph) and other alternative photo-printmaking (cyanotype). Technically, students learn how to translate imagery by hand and digitally (especially using Photoshop), make

In the Advanced Topics in Biology-Neural Engineering course, we will delve into modern engineering methods for mapping brain structures, measuring, interpreting, and manipulating neural activities to understand brain functions and behaviors. The course will cover cutting-edge neural engineering technologies, including various microscopy techniques, neural activity sensors, fundamental concepts of computational neuroscience, and tools for neural manipulation. Prerequisites for enrollment include completion of college-level mathematics courses. Prospective students should demonstrate a keen interest in using engineering approaches to understand the complexities of brain functions.

BIOL	495	001	2927	UNDERGRAD BIOLOGY RESEARCH	Lecture (In Person On Campus Learners)	1 - 3	A

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:  
<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

BIOL	495	017	3047	UNDERGRAD BIOLOGY RESEARCH	Lecture	1 - 3	A
(In Person On Campus Learners)							

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:

<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

BIOL 395/395H/495 will only be accepting an online-application form for undergraduate research. You will apply online, get a copy after submission, and share the copy with your research mentor and biology sponsor (when applicable).

Here is the online form:  
<https://forms.gle/qvdBoW26cbyfcQhGA>

Please note- before you apply you need to make sure that you found a lab and a faculty that will mentor you (principal instructor or PI). If that faculty member is outside the biology department you also need to find a biology faculty member that will serve as the biology faculty sponsor, interacting with you and the faculty mentor (the PI) to make sure everything works well during the semester.

WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>  
BIOL 514H.001 | Ecological and Evolutionary Developmental Biology.

MW, 3:35 pm - 4:50 pm. Instructor(s): David Pfennig. Enrollment = 24.  
A quiet revolution has transformed biology, a revolution triggered by new empirical and theoretical breakthroughs that have called into question our longstanding assumptions about the mechanisms of development, inheritance, and evolution. These unexpected breakthroughs have spawned a new field that seeks to understand how environments interact with developing organisms (including humans!) to shape their features, affect their health, and impact their evolution. In this combined lecture and discussion course, you will learn how this new field is transforming biology, gain experience interpreting the scientific literature, plan scientific research, and integrate ideas from across diverse disciplines of biology, from genetics to ecology.

PREREQUISITES: BIOL 201, BIOL 202, AND BIOL 205 (or consent of the instructor).

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit

<https://honorscarolina.unc.edu/academics/courses/#register>

BIOL 543H.001 | Cardiovascular Biology

TR, 2:00 pm - 3:15 pm. Instructor(s): Victoria Bautch. Enrollment = 24.

An experimental approach to understanding cardiovascular development, function, and disease. This class will cover development of the cardiovascular system (heart and blood vasculature), and cardiovascular function as linked to selected diseases. We will cover the molecular, genetic, cell biological, and biochemical techniques used to study the cardiovascular system, with an emphasis on the genes and signaling pathways involved in cardiovascular development and disease. It is assumed that students will have some familiarity with animal development and cell and molecular biology. This course will focus deeply on selected aspects of cardiovascular development, function and disease rather than taking a superficial approach to the subject. To facilitate a deeper understanding of the scientific method, some topics will be paired with a research paper from the primary literature.

Pre-Requisite: BIOL 205 or BIOL 103, BIOL 104, BIOL 220, and BIOL 240; or instructor permission for students lacking a prerequisite.

This course will survey and delve into the modern experimental and conceptual approaches of using the zebrafish as a model organism to investigate a wide range of important vertebrate biology for advancement of scientific knowledge, technology, and possible biomedical applications. The focus will be on the use of genetic and imaging approaches in a living vertebrate animal to study human-relevant biology and diseases.

GR1

We are currently amid a revolution in biology and medicine that centers on the ability to alter and probe transcriptomes and genomes at will using new molecular genome editing techniques and other biotech approaches. This revolution has spread across all model systems and has even begun to change the definition of what a model system is. In addition, these technologies are changing the way we treat disease, alter agriculturally important species, influence populations of organisms in our environment, and even ourselves.

The goal of this course is to familiarize students with genome editing technology and look at recent advances and applications for genome editing and associated biotechnology. This course is intended for advanced undergraduates and graduate students with an interest in biotechnology. The course will meet weekly in an interactive seminar format at the time above. Each week, we will discuss the background, methods, and results of a paper from the recent scientific literature regarding genome editing and associated technologies and interpret these in the light of current knowledge. Students will practice

reading and interpreting scientific papers, and present information to the group. Each week, one participant will have primary responsibility for presenting Meets in Coker 119

Network Pharmacology

NOTE: Please enroll in 3 credit hours. This course is offered for 3 credit hours only.

Prerequisites:

BM(M)E 325 or CHEM 430

MATH 383

Proficiency in a programming language such as Python, R, Matlab, Mathematica or similar. Basic knowledge of linear algebra.

TITLE: Medicinal Plants - Bridging Chemistry, Medicine, and Native American Culture

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-POWER

COURSE DESCRIPTION

There is an increased interest in medicinal plants as alternatives to modern medicine are sought. Native Americans have been using herbal medicine for centuries. Through readings, interactive lectures, guest speakers and field trips, we will explore the chemistry and biological effects of some medicinal plants and their role in Native American culture. This course will begin with an overview of chemical structures and molecular properties. Then we will focus on medicinal plants, herbal medicine and Native American culture. Student teams will prepare final papers and presentations that focus on medicinal plants used by Native Americans.

Fall 2024 Course Notes for CHEM 101/102

Three 75-minute midterm exams will be held in person at 6:00pm - 8:30pm (Eastern Time) on the following Wednesdays: 9/18/24, 10/9/24; 11/13/24. There is no online option for exams. Note that these midterms are outside of regular class time. Course expectations are that students will be in attendance for all midterms.

MAKE-UP EXAM POLICY:

In the case of serious illness, family emergency, religious holiday, class conflict, or varsity athletic travel there is a make-up exam time provided at 6:30 am (Eastern Time) on the Thursday morning following the scheduled exam. You cannot show up to the make-up exam unless you have received approval from your instructor prior to the official make-up exam date. The following list

Use Waitlists on Connect Carolina until the registration period is complete.

- Only waitlist one section! (If you add to the waitlist for multiple sections, the registration system will see a conflict (enrolling in the same course twice) and you will not be enrolled if a seat becomes available. The person behind you on the waitlist will claim the seat.
- Check to see if other sections at the same day and time have a waitlist. Some sections have no waitlist, while others are 4 deep. If there is another section at the day and time you need, it is better to be first on the waitlist.
- Be persistent, seats do open up.

If you are not enrolled in a lab section by the first week of classes: The chemistry undergraduate lab courses use an electronic waitlist to fill any empty seats that open during the week of check-in

CHEM 101L 413 4212 QUANT CHEM LAB I Lab 1 A

(In Person On Campus Learners)

Use Waitlists on Connect Carolina until the registration period is complete.

· Only waitlist one section! (If you add to the waitlist for multiple sections, the registration system will see a conflict (enrolling in the same course twice) and you will not be enrolled if a seat becomes available. The person behind you on the waitlist will claim the seat.

· Check to see if other sections at the same day and time have a waitlist. Some sections have no waitlist, while others are 4 deep. If there is another section at the day and time you need, it is better to be first on the waitlist.

· Be persistent, seats do open up.

If you are not enrolled in a lab section by the first week of classes: The chemistry undergraduate lab courses use an electronic waitlist to fill any empty seats that open during the week of check-in

CHEM      102      001      3932      GEN DESCRIP CHEM II      Lecture      3      A  
(In Person On Campus Learners)

Three midterm exams will be given in class on the following Wednesdays at 6:00pm - 8:30pm (Eastern Time) on the following Wednesdays: 9/18/24, 10/9/24, 11/13/24. Course expectations are that you will take all midterms.

EXAM MAKE-UP REQUESTS & ALTERNATIVE EXAM POLICY:

Course expectations are that you will be in attendance for every exam, and that you work your schedule around these exam times. However, in the case of serious illness, family emergency, religious holiday, class conflict, or varsity athletic travel there is an alternative exam time provided at 6:30 am (Eastern Time) on the Thursday morning following the scheduled exam.

You cannot show up to the alternative exam time unless you have received approval from your instructor prior to the official make-up exam date. The following provides guidelines for requesting the alternative exam time.

**Bldg:** Murray Hall      **Room:** G202      **Days:** MWF      **Time:** 11:15 - 12:05

**FIRST-YEAR LAUNCH SECTION**

**WHO CAN ENROLL IN THIS CLASS?**

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

**ENROLLMENT PROCEDURES**

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for

CHEM 102H.001 | Advanced General Descriptive Chemistry

TR, 2:00 pm - 3:15 pm. Instructor(s): Todd Austell. Enrollment = 24.

CHEM 102H is recommended by the Chemistry Department for STEM majors who have excelled in their pre-college chemistry classwork and who have an interest in pursuing chemistry or another STEM field as an academic major at UNC. The topics covered have been identified by the Department of Chemistry faculty as essential for success in and a good foundation for more advanced study in chemistry and other areas of the basic and applied sciences. The textbook, lectures and course work require a willingness to accept rigorous academic challenges and a solid high school background in algebra, coordinate geometry, and trigonometry. Differential and integral calculus will be used only where necessary in derivations and with explanation. In addition to reviewing important general chemistry concepts necessary for success at the next course level, students in CHEM 102H will receive training in scientific literature queries, will give short oral presentations of class topics, will attend scientific seminars both inside and outside of class time and will carry out one or two faculty interviews..

GR1

Use Waitlists on Connect Carolina until the registration period is complete.

· Only waitlist one section! (If you add to the waitlist for multiple sections, the registration system will see a conflict (enrolling in the same course twice) and you will not be enrolled if a seat becomes available. The person behind you on the waitlist will claim the seat.

· Check to see if other sections at the same day and time have a waitlist. Some sections have no waitlist, while others are 4 deep. If there is another section at the day and time you need, it is better to be first on the waitlist.

· Be persistent, seats do open up.

If you are not enrolled in a lab section by the first week of classes: The chemistry undergraduate lab courses use an electronic waitlist to fill any empty seats that open during the week of check-in

					(In Person On Campus Learners)		

CHEM 241H.001 | Modern Analytical Methods for Separation and Characterization

TR, 9:30 am - 10:45 am. Instructor(s): Erin Baker. Enrollment = 24.

Analytical separations, chromatographic methods, acid-base equilibria and titrations, fundamentals of electrochemistry, bioinformatics

To gain an understanding of the fundamental principles and modern techniques of chemical analyses including spectrochemical, electrochemical, volumetric and chromatographic methods. Additionally, explore modern chemical instrumentation and evaluate different methods for data interpretation.

If you would like to be considered for a seat in 241H, please send Dr. Baker a request by email to erinmsb@unc.edu. Please include your overall GPA, grades in Chemistry courses at UNC, and a brief statement regarding your interest/motivation in taking the Honors version of this course.

**Bldg:** Murray Hall      **Room:** G205      **Days:** TuTh      **Time:** 09:30 - 10:45  
INST      100      **Instructor:** Baker, Erin Marie

Use Waitlists on Connect Carolina until the registration period is complete.

- Only waitlist one section! (If you add to the waitlist for multiple sections, the registration system will see a conflict (enrolling in the same course twice) and you will not be enrolled if a seat becomes available. The person behind you on the waitlist will claim the seat.
- Check to see if other sections at the same day and time have a waitlist. Some sections have no waitlist, while others are 4 deep. If there is another section at the day and time you need, it is better to be first on the waitlist.
- Be persistent, seats do open up.

If you are not enrolled in a lab section by the first week of classes: The chemistry undergraduate lab courses use an electronic waitlist to fill any empty seats that open during the week of check-in

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>

CHEM 261H.001 | Honors Organic Chemistry I

TR, 9:30 am - 10:45 am. Instructor(s): Marcey Waters. Enrollment = 25.

Molecular structure and its determination by modern physical methods, correlation between structure and reactivity and the theoretical basis for these relationships; classification of "reaction types" exhibited by organic molecules using as examples molecules of biological importance. This course will be

similar to CHEM 261 with a greater emphasis on class discussion and some use of computer modeling techniques.

PREREQUISITES: CHEM 102 OR CHEM 102H. GPA OF 3.600 OR HIGHER.  
DEPARTMENT OF CHEMISTRY CONSENT REQUIRED. EMAIL chemus@unc.edu.

Professor Waters's research interests are at the interface of organic chemistry and biochemistry. The overarching goal of her research is to design CHEM 261H.001 | Honors Organic Chemistry I

TR, 9:30 am - 10:45 am. Instructor(s): Sidney Malik Wilkerson-Hill. Enrollment = 24.

Molecular structure of organic compounds, and the correlation between structure and reactivity including the theoretical basis for these relationships; classification of "reaction types" exhibited by organic molecules using as examples molecules of biological importance. This course will be similar to CHEM 261 with a greater emphasis on class discussion, problem-solving, and the investigation of organic chemistry research at UNC.

PREREQUISITES: CHEM 102 OR CHEM 102H. GPA OF 3.600 OR HIGHER.  
PERMISSION OF INSTRUCTOR REQUIRED. EMAIL chemus@unc.edu.

Fall 2024 Chem 261/262 Common Exams from 6:00 pm - 8:30 pm on the following dates:

Wednesday, 9/25/24

Wednesday, 10/23/24

Wednesday, 11/20/24

---

CHEM	262L	401	6131	LAB ORGANIC CHEM	Lab (In Person On Campus Learners)	1			A
<b>Bldg:</b> TBA		<b>Room:</b> TBA		<b>Days:</b> M		<b>Time:</b> 13:25 - 16:15			
						TA	100	<b>Instructor:</b> Motley, Tyler Chase	
<b>Class Enrl Cap:</b> 22		<b>Class Enrl Tot:</b> 22		<b>Class Wait Cap:</b> 999		<b>Class Wait Tot:</b> 2		<b>Class Min Enrl:</b> 0	
								GR1	
<b>Class Equivalents:</b> CHEM 262L/263L									

Use Waitlists on Connect Carolina until the registration period is complete.

- Only waitlist one section! (If you add to the waitlist for multiple sections, the registration system will see a conflict (enrolling in the same course twice) and you will not be enrolled if a seat becomes available. The person behind you on the waitlist will claim the seat.
- Check to see if other sections at the same day and time have a waitlist. Some sections have no waitlist, while others are 4 deep. If there is another section at the day and time you need, it is better to be first on the waitlist.
- Be persistent, seats do open up.

If you are not enrolled in a lab section by the first week of classes: The chemistry undergraduate lab courses use an electronic waitlist to fill any empty seats that open during the week of check-in

CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>  
 CLAS 051H.001 | Greek Drama on Page & Stage  
 MWF, 9:05 am - 9:55 am. Instructor(s): Alexander Duncan. Enrollment = 24.

Taking a participatory approach to ancient Greek drama, this course pairs readings from three Athenian playwrights (Aeschylus, Euripides, and Aristophanes) with performance-oriented activities and scholarship.

At its most traditional, this course surveys the historical and cultural context of the so-called ᾠclassicalᾠ Athens of the fifth-century BCE, emphasizing the political, religious, and aesthetic forces that gave rise to humankindᾠs first recorded theater. More innovatively, this course probes the dual nature of theater, its distinct but intertwined existences as codified script and socially-embedded performance, through sustained investigations of some of its most influential texts and their modern reception in a global context with case studies focused on post-Apartheid South African and 21st-century Chicana

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

CCLAS 131H.001 | Classical Mythology

MWF, 2:30 pm - 3:20 pm ; Recitation: W, 12:20 pm - 1:10 pm. Instructor(s): Suzanne Lye. Enrollment = 24.

The purpose of this course is to introduce students to the myths of the ancient Greeks and Romans, the stories about gods, goddesses, and heroes that were told and retold over a period of centuries. The emphasis will be not simply on learning these stories, but on studying them in their historical context. How were they transmitted? What roles did they play in Greek and Roman culture? What can we learn from them about the way that the ancient Greeks and Romans understood the world around them? In our explorations we will concentrate on literary texts, especially epic and tragedy, but will also consider visual sources, especially vase painting and sculpture. As another way of exploring the significance of myth in ancient Greek and Roman society, we will also examine analogous phenomena in our own society.

Suzanne Lye is an Assistant Professor in the Department of Classics at the University of

CLAS 263H.001 | Athletics in the Greek and Roman World

MWF, 12:20 pm - 1:10 pm; Recitation: W, 2:30 pm - 3:20 pm. Instructor(s): Alexander Duncan. Enrollment = 24.

To talk about sport is to talk about society, both today and in antiquity. This course will inspect the cultures of ancient Greece and Rome, from the age of Homer to the end of the (Western) Roman Empire, through the lens of athletics. We will scrutinize the mechanics and logistics of ancient athletic events and take up larger questions of interpretation, considering sport within its religious, cultural, and political contexts. Adopting and adapting an extensive battery of theoretical approaches; economic, anthropological, poetic, political, sociological, etc.; we will address such questions as the following: How do the ideals embodied in Greek and Roman sport relate to the myths and cultural practices of these societies? How were competitors, whether amateur or professional, rewarded and regarded by their societies? What ethical dilemmas did athletes face? Why were animals, slaves, and religious minorities subjected to blood-sport in Roman amphitheaters? Why did others volunteer to face the same fate? What legacies and lessons have ancient athletics left for the modern world?

CLAS 363H.001 | Latin and Greek Lyric Poetry in Translation

TR, 12:30 pm - 1:45 pm. Instructor(s): Patricia Rosenmeyer. Enrollment = 24.

This class will introduce you to the lyric poetry of ancient Greece and Rome, with an additional unit on the Song of Songs from the Hebrew Bible. Our focus will be on love poetry. Ideas of love and desire are culturally determined, reflecting assumptions often very different from our own. We will read a variety of poems in the context of their socio-historical settings, and address a range of issues including physical vs. spiritual love, cultural ideals of beauty, literary representations of gender roles and sexual preferences, and the dynamics of reception in literature. This course will be taught as a seminar, allowing for discussion and in-depth analysis of the primary sources (in translation). Students will write a total of 20 pages during the semester, including a creative group project for oral presentation and a final research paper. There are no prerequisites, but students may find that a basic knowledge of ancient Greek and Roman civilizations will be helpful to them in the class.

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

TITLE: Paying Attention: The Art of Documentary

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-CREATE

**COURSE DESCRIPTION**

Paying attention to the world around us is foundational to our understanding of the people, behaviors, environments, and living species that co-exist alongside us. Attention fuels our curiosity, deepens our empathy, and invites us to step outside of ourselves. Representing what we pay attention to, what we see and hear, is the art and practice of documentary. At its essence, documentary is a "document" of what we observe and what we record. In this course, we will use video and sound recording along with the written word to document and then re-present what we are paying attention to. Throughout the course, students will strengthen their attention-paying capacities and learn how to refine their chosen methods of documentation. Class discussion, readings, film

Environmental Advocacy										
This seminar introduces students to the foundations of environmental communication and environmental advocacy from both a theoretical and practical perspective. We'll learn about the history of environmental thinking and activism, explore the social construction of nature through discourse and the media, as well as gain an understanding of the role of environmental sciences in public discourse, law, and politics.

**\*\*This course is OPEN TO ALL STUDENTS: Non- Majors and COMM Majors\*\***

This course examines the role of symbolic action, persuasion, and public speaking in the social construction/production of race and the perpetuation of racism as a system of domination. The course focuses on the voices of racially marginalized communities and anti-racist speech, representations of race that contribute to and challenge racism, and racialized public discourse regarding borders, national security, citizenship, and immigration.

Course descriptions:

This course will provide an introduction to the history and development of "Theory" as the foundation for much of the most interesting thinking and research in the humanities and social sciences. In the contemporary intellectual universe, "theory" provides a common language of concepts and methods that enable intellectuals and scholars investigating human social and everyday life to speak to one another-- across disciplines and geographies, comparable to the way statistics and experimentation function in the more traditional models of science (including some social science work).

"Theory" includes many of the major schools of modern and contemporary philosophy (that stand in opposition to what is often referred to as "analytic philosophy," which often dominates Anglo-American philosophy departments); but it also includes other-- less traditionally "philosophical"--positions. At the same time, "theory" differs from "philosophy" in so far as it is interested in providing the foundation for more empirically oriented understandings of concrete instances of human relations, practices, etc. What philosophy and theory have in common is that they provide a set of tools--concepts, filters,

GR3

The overarching objective of COMM 702 is to introduce graduate teaching assistants to the practice and theory of teaching undergraduate students at UNC. The course will provide practical advice and tips about teaching. The beginning and middle of the course will focus on practical elements of teaching, such as people management (ie. navigating classroom relationships, classroom climate, and disruptive students), classroom management (ie. fostering class discussion, classroom activities, and lectures), and document management (ie. preparing syllabus, choosing reading assignments and grading). The final few weeks of the course encourages contemplation about the theory of teaching and the role of the professoriate in academe. Course content and class discussions are designed to encourage intellectually rigorous and personally meaningful conversations about our teaching and how our personal perspectives of teaching and learning influence our practices as teachers. We will read about and discuss different approaches to teaching, the enactment of communication instruction, and growing as a teacher. You will leave this course with materials designed to help you as a new teacher, such as a course syllabus, a lesson plan, and a draft of your statement of teaching philosophy.

Seminar: Media & Consumer Culture							
This seminar looks to explore the historical shifts in how consumers are imagined and addressed by key stakeholders, from the nineteenth century through the twenty-first, with a particular focus on how entertainment, leisure, and advertising industries have redefined the consumer in relation to new technologies and platforms and changing sensibilities about what types of consumers have value and what makes acts of consumption valuable. Consumer culture is oft maligned as apolitical, inauthentic, passive, and a means of manipulating and distracting people from challenging systems of oppression and engaging in more meaningful cultural practices. While such critiques may have some merit, they are also deeply classist, exclusionary, treat people like dupes, and most importantly, ignore the complex ways in which the "consumer" is constructed and reconstituted within shifting political, economic, educational, industrial and cultural contexts, or how the structuring logics of consumer culture also afford consumers agency through which individual, social, and systemic constraints can be challenged (or, at least, acknowledged). The seminar will pay close attention to the ways consumer culture has been leveraged in the

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit

<https://honorscarolina.unc.edu/academics/courses/#register>

COMP 283H.001 | Discrete Structures

TR, 9:30 am - 10:45 am. Instructor(s): Jack Snoeyink. Enrollment = 24.

Underlying the many applications of computers in our daily life are discrete structures like Boolean logics, relations, finite state machines, graphs, and networks that have mathematical specifications. You can tell your parents that the primary purpose of this class is to introduce these discrete structures and the formal proof techniques that support the production, verification, and maintenance of correct software. In fact, many of these are familiar from puzzles and games: already in 1990 Super Mario World expects kids to immediately understand a finite state machine diagram. This is a language class: you will learn vocabulary and idioms of a language that is more precise and less ambiguous than the languages that we usually speak or write. With any new language, you may at first struggle to make yourself understood, but by frequent immersion and fearless practice you can become comfortable thinking and expressing yourself creatively in the language. Students pick up languages at different rates, so work to teach each other. All can gain fluency with effort and a willingness to make mistakes. And fluency will help all your computer science endeavors ; precise and unambiguous

COMP 290 001 15038 SPECIAL TOPICS IN COMPUTER SCIENCE Lecture 1 A  
(In Person On Campus Learners)  
**Bldg:** Sitterson Hall (inc**Room:** FB009 **Days:** W **Time:** 14:30 - 15:45

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>

DRAM 081H.001 | Staging America: The American Drama  
TR, 2:00 pm - 3:15 pm. Instructor(s): Greg Kable. Enrollment = 24.

This seminar examines our national drama from its colonial origins to the present. Participants read plays and criticism, screen videos, engage in critical writing, and consider performance as related means of exploring the visions and revisions constituting American dramatic history. We will approach American drama as both a literary and commercial art form, and look to its history to provide a context for current American theater practice. Readings are chosen for their intrinsic merit and historical importance, but also for their treatment of key issues and events in American life. Our focus throughout will be on the forces that shaped the American drama as well as, in turn, that drama's ability to shed light on the national experience.

FIRST YEAR STUDENTS ONLY.

**Class Equivalents:** DRAM 284/284H

This course seeks to bridge the mind/body split so prevalent in Western European/North American theatrical practice. Come ready to move, to play, and to think about what it means to move and to play as part of an artistic practice.

Each week throughout the semester we will move between practice and theory. The two-hour Monday sessions will be an introduction to the basics of Okinawan Uechi-Ryu Karate, with Wednesday sessions dedicated to theoretical writings, plays, and films on the martial arts, mime, theatrical performance, movement for the theatre, and theatrical design drawing upon writers from across the globe.

Are you an actor interested in investigating how to be in the moment? A director who wants to explore how play in performance? A designer eager to envision the various components of bodies moving in space? A dramaturg desiring a deeper understanding of how meaning is created in performance? An activist yearning for ideas that lead the creation of community? Someone searching for an active meditative practice? If so, this section of DRAM 284 is for you!

The course will be taught by Adam Versényi who first performed as a dancer when he was 4 years old, began to perform as an actor when he was 9, and started

**WHO CAN ENROLL IN THIS CLASS?**

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

**ENROLLMENT PROCEDURES**

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

TITLE: Human Rights and Literature

IDEAS IN ACTION GEN EDS: FY-SEMINAR

COURSE DESCRIPTION

In this class we will investigate the history of human rights from the perspective of literature. We will explore how rights are represented and narrated in novels such as Mary Shelley's Frankenstein and how founding declarations, famously, the Declaration of Independence (1776), the Declaration of the Rights of Man and Citizen (1789), and the Universal Declaration of Human Rights (1948), rely on fictional structures. While attending to some of the more politically contentious issues involved with human rights, such as the claim that universal rights lack political and legal enforcement, we will also consider the following questions: how does fiction help articulate and represent claims to human rights? Why might a political philosopher or legal scholar turn to a

TITLE: Free Speech and American Literature

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-AESTH or FC-VALUES

COURSE DESCRIPTION

In this course students will explore the relationship between American novels and free speech. Paying particular attention to the ideas of rational deliberation and civil discourse, pillars of free speech in First Amendment doctrine, we will read landmark legal as well as key philosophical texts exploring the role of free speech in democracy. Our literary readings will center on portrayals of key themes related to free speech, both in novels written during the era in which the First Amendment became doctrine and in contemporary novels examining civil discourse. Questions and themes to be considered include creativity, curiosity, equality, and judgment. Readings by Plato, John Locke, David Hume, Matthew Arnold, I.A. Richards, John Stuart Mill, Robert

ENGL 132H.001 | Honors: Intro to Fiction Writing  
TR, 12:30 pm - 1:45 pm. Instructor(s): Matthew O'Wain. Enrollment = 15.  
This course is a collective, collaborative exploration of the techniques of fiction, through close reading and discussion of classic short stories to the writing of short exercises dealing with the elements of fiction (setting, characterization, dialogue, point of view, etc.) and, later in the term, one short story (2,000-5,000 words). There is a midterm examination. The class is a seminar, a workshop with both written and oral critiques of student works required, and students can expect a lively and encouraging atmosphere as we investigate and practice the imaginative craft of fiction writing.

FIRST YEAR HONORS CAROLINA STUDENTS ONLY.

GR1

ENGL 133H.001 | Honors: Intro to Poetry Writing

TR , 11:00 am - 12:15 pm . Instructor(s): Tyree Daye. Enrollment = 15.

In this class we'll be thinking about every aspect of the poem. What inspires us to write them, how do we start? And, most importantly, how can a deep understanding of poetic craft help us to make rigorous and muscular poems from the raw material of our lives and vision? We will look at the work of established poets to help us increase the power of our own. We will think about traditional forms as an invitation to our own urgent, necessary and deeply contemporary work. More than anything poetry is a conversation that's been happening over millennia. We will endeavor to find where we fit in and where and how we are blazing our own path. This is an Honors class so students will be expected to be actively engaged in their own work and the work of their peers. As such, each student will be paired with another member of the class as a Primary Reader. Primary Readers will write letters to each other throughout the term as means of thinking about how we talk (even at the beginning of our poetic lives) about the arc of another writer's poems and poetic pursuits. It will rock. We're in it together!

ENGL 225H.001 | Shakespeare

TR, 11:00 am - 12:15 pm. Instructor(s): Mary Floyd-Wilson. Enrollment = 24.

How did genre (tragedy, comedy, romance, or history) shape the concerns of Shakespeare's plays? This class will read a range of Shakespeare's works to help us investigate a series of questions about his culture and society. What, for example, do comedies reveal about controversies concerning marriage or the status of gender roles? What do tragedies say about religious and cultural perceptions of the origins of evil? What do they suggest about current theories of governance? We will situate the plays within their historical contexts by reading them alongside social histories and non-dramatic primary texts (such as handbooks, popular pamphlets, ballads, and diaries). For each play we will also review some of the current critical debates, sorting through the controversies to form interesting and relevant research questions.

ENGL 238H.001 | 19th-Century British Novel

TR, 3:30 pm - 4:45 pm. Instructor(s): Jeanne Moskal. Enrollment = 24.

For us, Jane Austen has outshone and obscured the other British novelists writing during her lifetime (1775-1817). Yet Austen saw herself among a coterie of novelists, mostly women, who were then striving to elevate the long-disparaged genre of the novel. Early in her career, Austen critiqued the Gothic excesses of her predecessor Ann Radcliffe, but with time Austen saw common ground between herself and her 'sister' novelists. Together, they displayed 'the greatest powers of the mind' and 'the most thorough knowledge of human nature' in 'the best-chosen language'; in short, they were discovering the genre's potential to take their society's measure and to expose its limitations. In this course, we will examine Austen's literary conversation with her 'sister' novelists of

the Romantic period by reading Austen's Northanger Abbey and Pride & Prejudice alongside Mary Wollstonecraft's Maria; or, the Wrongs of Woman; Ann Radcliffe's The Mysteries of Udolpho; Sydney Owenson's The Wild Irish Girl; Mary Shelley's Frankenstein and Valperga; and the anonymously published The Woman of Color: a Tale. Our goal is to discern both Austen's uniqueness among her contemporaries and the concerns they share.

ENGL 265H.001 | Literature and Race, Literature and Ethnicity

TR , 2:00 pm - 3:15 pm. Instructor(s): Elyse Crystall. Enrollment = 24.

This course takes as its primary objects of analysis novels, poetry, and visual and filmic texts; historical and government documents; and personal memoir, music, journalism, and interviews, in order to examine how race and ethnicity, or maybe our perceptions of race and ethnicity, shape our current world. This, in turn, should enable us to imagine other ways of seeing and being. We will consider how race and ethnicity, among many other identity signifiers, are structured by institutions and social relations and informed by cultural beliefs. Once we understand how we participate in and interact with these structures, how we are defined by them, how we create them, we are positioned to critique and change them.

The sub-title (how does it feel to be a problem?) comes from W.E.B. Du Bois's 1903 foundational text *The Souls of Black Folk* where, among other important insights, critiques, and analyses, he predicted that the color line would be the issue of the twentieth century. Perhaps it is the question for the

ENGL 268H.001 | Medicine, Literature, and Culture

, ; Recitation: , OR , . Instructor(s): . Enrollment = 40.

This course provides an introduction to Health Humanities, an interdisciplinary field that combines methods and topics from literary studies, healthcare, and the human sciences. We'll read novels, screen films, learn about illnesses and treatments, and hear expert speakers as we investigate the importance of narrative in the time of high-tech medicine. We'll pay close attention to how ideas about sickness have changed over time and across cultures. Topics will include the clinician-patient relationship, medical detection, the rise of psychiatry, racism and social determinants of health, epidemics and the outbreak narrative, and the quest for immortality.

Prerequisites: This course welcomes students from all fields, especially humanities majors and those interested in careers in healthcare and health affairs.

ENGL 283H.001 | Life Writing

TR, 3:30 pm - 4:45 pm. Instructor(s): Michael Gutierrez. Enrollment = 24.

In Life Writing, we will begin by studying the genres and characteristics of life writing and its sibling creative nonfiction. You will use these readings as models for your own creative work. We will then narrow our focus to the basic components of nonfiction essays and memoirs before you begin your auto-ethnography. In the last unit, we will evaluate one piece by each student. In addition, you will be submitting several exercises, along with a peer evaluation for every student in the course.

This is not a class where you will write traditional academic essays. This is a creative writing class. Here you'll be seeking to entertain and emotionally move your reader. Whimsy, humor, and the raw truth are encouraged.

**Class Equivalents:** ENGL 284/284H

Spend this term in some exciting places. Plunge down the rabbit hole with Alice, get whirled to Oz with Dorothy or fly to Neverland with Peter and Wendy, go shopping on Diagon Alley with Harry and Hagrid.

In English 284 Reading Children's Fiction read (or reread) some of the most influential and lasting books written in English. Enjoy works hailed as classics alongside works recovered for their importance and vitality: get lost in the pictures and stories of the children's magazine, *The Brownies Book*, edited by W. E. B. Du Bois and a masterwork of the 1920s.

This course considers how to define children's literature (from 'nursery stories' through 'young adult').

What stories do these books tell? How do they tell them?

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit

<https://honorscarolina.unc.edu/academics/courses/#register>

ECON 101H.01F | Introduction to Economics

TR, 2:00 pm - 3:15 pm; Recitation: F, 12:20 pm - 1:10 pm. Instructor(s): Sergio Parreiras. Enrollment = 30.

Introduction to fundamental issues in economics including competition, scarcity, opportunity cost, resource allocation, unemployment, inflation, and the determination of prices.

Sergio O. Parreiras research focuses on game-theoretic models of contests, tournaments, and relative performance evaluation.

VERY IMPORTANT: HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>  
ECON 400H.001 | Introduction to Data Science and Econometrics.

TR, 2:00 pm - 3:15 pm; Recitation: F, 12:20 pm - 1:10 pm. Instructor(s): Christopher Handy. Enrollment = 24.  
This course is a comprehensive introduction to statistics, including descriptive statistics and statistical graphics, probability theory, distributions, parameter estimation, hypothesis testing, simple and multiple regression, and use of powerful statistical estimation software. This course includes a substantial introduction to basic econometrics.

Prerequisites, ECON 101 and one of MATH 152, 231, or STOR 112, 113.

GR1

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

EMES 072H.001 | Field Geology of Eastern California

TR, 2:00 pm - 3:15 pm. Instructor(s): Drew Coleman. Enrollment = 20.

Have you ever wanted to stand on a volcano, see a glacier, trace out an earthquake fault, or see the Earth's oldest living things? This seminar is designed around a one-week field trip to eastern California, where students will study geologic features including active volcanoes, earthquake-producing faults, and evidence for recent glaciation and extreme climate change. Before the field trip (which will take place the week of Fall Break and be based at a research station near Bishop, California), the class will meet twice a week to learn basic geologic principles and to work on developing field research topics. During the field trip students will work on field exercises (e.g., mapping, measuring, and describing an active fault; observing and recording glacial features) and collect data for the research projects. After the field trip, students will obtain laboratory data from samples collected during the trip and test research hypotheses using field and laboratory data. Grading will be based on presentation of group research projects, and on a variety of small projects during the trip (notebook descriptions, mapping projects, etc.). Students may be required to pay some of the costs of the trip (typically, about

TITLE: How Green are We? Examining Campus Sustainability at UNC

IDEAS IN ACTION GEN EDS: FY-SEMINAR; FC-VALUES

COURSE DESCRIPTION

How sustainable is our university? Cities around the world face issues of environmental degradation, congested traffic, poor water supplies, sanitation concerns, poor energy delivery and waste management. A research university is analogous to a small city, where we can both investigate and more easily implement sustainable technologies and practices. In this class we will examine the sustainability concerns of the modern university, going back of the house; around UNC; how green is our energy? Our food? Our water? How do we handle waste across these inputs? We will examine how sustainability is measured and improved, comparing our institution's progress to other similar schools, and ask ourselves both where we can do better and how we can convince the

FIRST-YEAR LAUNCH SECTION

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this

class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for

HONORS STUDENTS WHO INTEND TO REGISTER FOR A FALL 2024 HONORS COURSE, SHOULD DO SO DURING WAVE 1 OR WAVE 2. WHEN OPEN ENROLLMENT BEGINS ON APRIL 22, HONORS COURSE REGISTRATION WILL BE SUSPENDED IN ORDER TO RESERVE ALL REMAINING SEATS FOR INCOMING FIRST-YEAR HONORS STUDENTS. CONTINUING STUDENTS WILL NOT REGAIN REGISTRATION ACCESS FOR HONORS COURSES UNTIL AUGUST 5. For more information, please visit <https://honorscarolina.unc.edu/academics/courses/#register>

EXSS 089H.001 | Brain Matters: The Human Computer  
TR, 11:00 am - 12:15 pm. Instructor(s): Jason Mihalik. Enrollment = 24.

Brain Matters: The Human Computer will explore one of the greatest anatomical and physiological mysteries known to us: the brain. The brain contains over 100 billion neurons allowing the human brain to serve as the hub for everything we do, say, or feel. It is by far the most complex and sophisticated `computer; in existence. Together, we will explore this vast unknown. We will discuss and explore topics ranging from anatomy, neurodevelopment, decision-making, maturation, disease, and other topics related to our cerebral computers. The seminar will use examples from research and mass media to complement the teaching materials in the seminar. You will have opportunities to work together, present your work, submit reaction papers, and participate in class discussion on these topics. The seminar is intended for all first-year students; regardless of intended major; interested in neuroscience.

GR1

**Reserve Capacity:** 17-MAR-2024 UG EXSS Majors **Reserve Enrl Cap:** 1 **Reserve Enrl Tot:** 1

Seats are reserved for EXSS majors during the Fall and Spring semesters. Non-majors will want to look at taking this course in one of the summer sessions which are self-enrolling.

Please join the waitlist for sections 401 or 402 in Connect Carolina during Wave 2 if you are interested in being enrolled in EXSS 275L.

YOUR SPOT ON THE WAIT LIST DOES NOT ASSOCIATE WITH YOU BEING GIVEN A SEAT IN THE COURSE.

The department will confirm that you are an EXSS major, and have completed EXSS 175 or EXSS 155 with a B or better. Ranking on the official waitlist is determined by the number of hours toward graduation (seniority), as well as terms here at UNC. You will be contacted sometime in late July or early August if you are given a seat in the course, and will be manually enrolled then.

Please contact Lacey Singletary with questions (lsingle@email.unc.edu).

The purpose of this course is to enhance students understandings about social and cultural dimensions of sport and exercise contexts. Through directed readings, classroom conversations, assignments/projects, and guest speakers, students in this course will learn how these sociocultural realities 1) are explored through academic research, and 2) impact sport and exercise policy, programs, and innovation, and 3) impact sport and exercise constituents, such as participants, planners, leaders, and advocates.  
Sociocultural Aspects of Sport and Exercise

All LFIT classes will meet in Fetzer Gym A for the first day of class. You will hear a brief overview of what to expect in LFIT this semester, and break out into our group.

\*You will not be doing any physical activity on the first day of class.

Spaces have been reserved for senior and first year students. Remaining seats will be open to everyone during open enrollment beginning early August. Students may take only one, one-credit Lifetime Fitness (LFIT) course during their career at Carolina. This course has an additional fee.

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

FIRST-YEAR LAUNCH SECTION

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

GR1

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

WHO CAN ENROLL IN THIS CLASS?

Seats are restricted to first-year students (and transfer students in their first year at UNC who completed <24 hours of post-high school college coursework at another institution before their first semester at UNC). If you are a transfer student, refer to the UNC Catalog (<https://catalog.unc.edu/undergraduate/ideas-in-action/#transferstudentstext>) for additional information. Honors first-year students may not enroll in this class; they should only enroll in an Honors First-Year Seminar or Honors First-Year Launch.

ENROLLMENT PROCEDURES

Students may only enroll in one (1) First-Year Seminar OR (1) First-Year Launch during their time at UNC. Most seats in this section are reserved for incoming first-year students. The remaining seats are made available during Waves 1 and 2 and new first-year student registration sessions beginning in July.

HIST 179H.001 | Queer Americans in the 20th Century

TR, 9:30 am - 10: 45 am. Instructor(s): Chris Parks. Enrollment = 24.

This honours course explores the history of LGBTQ+ people in the 20th century United States. It follows the course of the 20th and very early 21st century from the perspective of queer people themselves as they navigated the social, institutional, and political terrain of a country that was often hostile to their presence and existence. The course also explores the myriad ways LGBTQ+ people expressed their experiences through culture, activism, and the creation and innovation of family and community. Intersecting with themes of race, class, religion, nationalism, and gender, the histories and herstories of queer people will be unpacked through a variety of locations, communities, and historical contexts.

The course is structured in roughly chronological order. Beginning at the turn-of-the-century, the first weeks situate LGBTQ+ history in the wider historiographic context of (pseudo)scientific debates about sexology, vice, and urbanization. Here, students will be equipped with the basic terminological

HIST 179H.002 | Slavery and the US Civil War

TR, 9:30 am - 10:45 am . Instructor(s): Antwain Hunter. Enrollment = 24.

The United States's historic relationship with slavery, particularly during the Civil War Era, is often misunderstood in the present day This loosely chronological course explores the country's ties to the institution during this important period in the American past. Course content features the institution's expansion into the United States; western territories, the political debates around slavery in the decades preceding the Civil War, the rise of the abolition movement and the proslavery response, slavery's role in the secession crisis, the wartime experiences of enslaved people on the Southern home front, the Lincoln administration's policies towards enslavers in the Confederacy and the slaveholding Union states, wartime emancipation and formerly enslaved peoples; military service, the struggle to pass the XIII Amendment, and freedpeople's fight to fully realize their freedom during Reconstruction. Students in this course will read a number of important secondary texts on the subject but will also engage with a wide array of sources produced during the Civil War Era, which will allow them to draw their own conclusions about this complex period. These primary sources will include slave narratives, period

HIST 283H.001 | Chairman Mao's China in World History

MW, 3:35 pm - 4:50 pm. Instructor(s): Michael Tsin. Enrollment = 20.

In the last few years there have been many reports on how Maoism is making a comeback in China, an assertion that often draws on a rather crude comparison between the country's founding leader, Mao Zedong, and its current president, Xi Jinping. Yet, at the same time, commentators are also often quick to emphasize that in many ways the China of today is virtually unrecognizable from the country once ruled by Mao. Indeed, it is common to portray the early years of the People's Republic of China (PRC) from 1949 to the late 1970s as a period characterized by disastrous policies and China's isolation from the rest of the world. China only became a major player on the world stage, we are often told, when it rejoined the global order from the reform era of the 1980s onwards. From that perspective, then, contemporary China is a clear departure from its Maoist predecessor. How are we to reconcile these two seemingly contradictory portrayals of China nowadays?

History 398-001: Leisure Time and Making of Modern America, 1880-1945

Today Americans are deeply invested in leisure. It assumes an almost sacred significance in our personal lives and is widely acknowledged as an indicator of the economic health of the nation itself. Yet leisure has not always enjoyed such widespread consensus. In this course we will turn our attention to a moment when rancor about leisure permeated American communities, homes and especially the pages of newspapers and magazines.

This is a research seminar that uses leisure to explore American life between 1880 and 1945. It was precisely in this moment that working Americans began to enjoy increasing amounts of spare time. Leisure itself changed, too, in this period. Commercial forces overhauled the kinds of leisure activities that were available. By the early twentieth century new kinds of amusements such as movie theaters and dance halls enjoyed increasing appeal in towns and cities throughout the country. These spaces nurtured a set of outlooks, identities and modes of social interaction we have come to associate with modern life.

History 398-002: Modern London: The Imperial Metropolis

We explore the making of London as a world city and imperial and postcolonial capital from 1890 through the present. At the heart of our investigations are the challenges of metropolitan political culture: a panoramic constellation of neighborhoods, social movements, demographic shifts, built environments, changing modes of economic life - and the language of varied artistic forms in which urban existence found expression. The nineteenth century West End luxury markets and the notorious rookeries of the Edwardian East End signaled the subsequent growth of new forms of social inequality at the heart of London's present dilemmas. The metropolitan twentieth century witnessed the catastrophe of the Great War, interwar economic crisis, the terrors of the Blitz, and the promulgation of an encompassing postwar welfare state. A rigid class hierarchy and royal and aristocratic privilege coexisted with increasing multireligious, multicultural and interracial patterns of living. Historical struggles over immigration, racism and racial difference, gender conflict and sexuality rights, and religious commitment, continue as central problems for London and the city's inhabitants in our time. The legacies of imperial

History 398-003: Shaping the World: The Emergence of New Global Orders in the 20th & 21st Centuries

This course deals with three transitions from old established but increasingly contested order systems to new global orders. The course will explore: 1. the transition to a new order that followed the end of World War I and the Versailles Peace Treaty; 2. the transition from the end of World War II to the Cold War (c. 1944-1949) and, 3. the gradual emergence of a new global order that our own times have been grappling with since the end of the Cold War and the early 21st century.

For their respective research projects students are expected to focus on one of the above transitional eras and chose a research topic in cooperation with the professor. There is abundance of published primary material available, especially for the first two transitional phases but also for the third one. This will be discussed during the first few weeks of the semester.

HIST 398-004: Travel Writing

Imagine you are a British gentleman of the 19th century. You have just settled into your comfy club chair at home with a pipe in hand, ready to digest the latest edition of travel reports from Borneo. Or perhaps you are a schoolchild in America in the 1950s. The latest National Geographic has just arrived in your mailbox, and you eagerly pore over its glossy pages. In either instance, you are probably reading travel writing in order to learn more about foreign lands and peoples, whether to be entertained, edified, informed, titillated or transported.

In this historical research seminar, we will be turning the tables on these scenarios. Instead of reading travel writing at its most obvious level to learn more about foreign lands and peoples, we will be analyzing these works to discover more about the concerns and preoccupations of their 19th and 20th century American and European authors and readers, by asking a series of questions: How, why and in what modes have Westerners written about foreign lands and

HIST 398-005: Civil War as Lived Experience

What was it like to live through (or die in) the Civil War? What difference did it make if one was a Federal or a Confederate, soldier or civilian, white or black, free or slave, male or female? How did the war fit into contemporary political and social beliefs? How do we get at the subjective experiences of the war?
